O.T473 Clinical Training In Physical Dysfunction - JNQF Level: 7

First Semester 2023-2024

Course Catalog

4 Credit Hours. This training course provides the students to practice their assessment and treatment skills in dealing with adults with physical disabilities in various occupational therapy clinics and centers in the local community. Students are expected to apply the whole therapeutic process under close supervision by therapists from these centers, as well as continuous follow-up by the training coordinator from the university. This supervision will range from observation till students are capable of independently performing the entire assessment and treatment of patients.

Teaching Method: On Campus

Policy	
Professional behavior	All students are expected to respect the clinical setting polices, dress professionally, attend and leave on time, and obey the supervisors instructions. Any significant violation of these expectations will lead to serious impacts on the grade proportional to the violation.
Assignments	All of the assignments are individual except for the condition?s presentation and the journal club. The instructors will assign the students into their groups and content. A 30% penalty would apply on any assignment if the student(s) broke the deadline without the instructor?s prior authorization.
Absence of two days or more of the training rotation will end the student?s participation in the course; this will prevent the student from registering for next semester training courses without re-taking the course.
