PARA391 Ethics In Applied Medical Careers

First Semester 2023-2024

Course Catalog

1 Credit Hours. The course highlights ethical issues of importance to applied medical science students. It includes many case scenarios that expose students to different dimensions in their clinical practice. The course starts with philosophical and theoretical assumptions behind ethical decision making and then apply this knowledge to particular situations in relation to health care, professional issues, practice issues, technology, scholarship, and social issues
