CIS251 Accounting

First Semester 2021-2022

Course Catalog

3 Credit Hours. This course is designed to introduce students to clear, basic understanding of the essentials of accounting. Emphasis is given to the underlying principles of Accounting. However, a great deal of the material in this course is presented so that the fundamental concepts of accounting can be related to accounting situations. The focus of the course is to provide an understanding of the accounting tools and techniques

Evaluation

Assessment Tool	Weight
Quiz	15%
Midterm Exam	35%
Final Exam	50%

Policy	
Policy	<p>Attendance: Attendance is very important for the course. In accordance with university policy, students missing more than 10% of total classes are subject to dismissal. Penalties may be assessed without regard to the student's performance. Attendance will be recorded at the beginning or end of each class.</p> <p>Case Studies: Students are expected to keep up with the material as it is presented and submit assignments on time. Homeworks /Quizzes: - Homeworks must be submitted on time. - Submit a hard copy of your homework with your name, Section#, Sequence #, SID, and Homework # on it. E-mail submission is not permitted. - All homework assignments are to be done individually. Students submitting similar work will both receive ?Zero? and face possible disciplinary actions - You will be informed about Quizzes during lectures. Exams: All exams will be CLOSE-BOOK. The date of exams will be announced ahead of time.</p> <p>Makeup Exams : - Makeup exam should not be given unless there is a valid excuse. - Arrangements to take an exam at a time different than the one scheduled MUST be made prior to the scheduled exam time. Drop Date : - The last day to drop or withdraw from this course without academic penalty is before week 12 of the current semester. Cheating : -Neither plagiarism nor cheating will be tolerated! It is expected that all the work you hand in is your own. Workload : - Average work-load student should expect to spend is 6 hours/week. Graded Exams : - Exam papers will be returned to students a week after the exam.</p> <p>Participation : - If you are having difficulty grasping the material in this course, do not wait until just before an exam to ask for help; by then it is too late. Questions are encouraged in this course; so ask as many as you want!. - Students are encouraged to participate in class discussions, which will positively affect your final grade. - You must be considerate to your fellow students. If you have a mobile phone, or any other electronic device that has an audio notification system (sound), turn off the device while in class. Also, please do not leave class in the middle of the lecture; it can be disruptive.</p>
Additional Information	<p>Try to understand rather than memorize the material in this course. If you memorize the material, it will be very difficult to work some of the problems and to grasp the usefulness of financial decision making. Keep in mind that understanding the financial concepts is more important than being able to work problems, that is, understanding what the result of a computation means is more important than the computation. For that reason, most of the questions on the exams will be concept questions that test your understanding of the material rather than problems that test your ability to complete the computations.</p>
