Midwifery Department

MW338 Labour & Birth (Clinical)

First Semester 2022-2023

Course Catalog

3 Credit Hours. The focus of this course is on the provision of evidence based practice essential to the midwifery care of normal and high ? risk for women during labor and birth. Emphasis is on the application of intra-partum skills based on the concept of "normality" of child birth, evidence- based practice, risk assessment and management. The student midwife will demonstrate the midwifery model of care, spontaneous childbirth and assist in high risk deliveries. Also, the student will display appropriate skills and knowledge to solve problems rise in the intrapartum period.
