MW464 Community Health For Midwifery Theory
Second Semester 2020-2021

Course Catalog
3 Credit Hours. This Course addresses some concepts of community-based midwifery care. It also provides theory essential to the assessment, planning, implementation and evaluation of the clients across the lifespan in the community-individuals, families, groups, and the community itself. Emphasis is on the study and application of midwifery role components inherent in community health for health promotion, and disease prevention based on the concepts of primary health care and home health care for women and their families. Students are directed toward implementation of the midwifery model through applying primary, secondary, and tertiary prevention of disease for women and their families in community setting. In particular, providing care to women during pregnancy, childbirth and postpartum periods and their (fetuses and newborn). It also guides the student midwife to utilize the tools so to understand some important facts in their local communities that may have an effect on health. There will be special focus on women's roles and the health and mortality pathways that might exist in the community.

midwifery book	Varney's midwifery	King, T. L., Brucker, M. C., Osborne, K., Jevitt, C	6th Edition	

Instructor	
Name	Dr. Karimeh Alnuaimi
Office Location	N3-L3
Office Hours	Sun : 13:00 - 14:00 Mon : 09:00 - 10:00 Tue : 09:00 - 11:00 Wed : 09:00 - 10:00 Thu : 09:30 - 11:30
Email	kmalnuaimi@just.edu.jo

Class Schedule & Room
Section 1: Lecture Time: Thu : 11:30 - 14:30 Room: N1301

Prerequisites		
Line Number	Course Name	Prerequisite Type
423361	MW336 Labour & Delivery (Theory)	Prerequisite / Pass

Tentative List of Topics Covered		
Weeks	Topic	References
Week 2	Introduction to community health nursing and midwifery	
Week 3	Role of community health midwife	
Week 4	Setting the stage for community health nursing and midwifery	
Week 5	Theoretical bases for promoting family health	
Week 6	Working with families: Applying the nursing process	
Week 7	Violence affecting families	
Week 8	Community as client: Applying the midwifery care model to conclude health needs of women and her family during home visit.	
Week 9	Maternal-child health: working with women during prenatal, antenatal; childbirth; postnatal and infant.	
Week 9	Ascertain maternal and infant morbidity and mortality associated factors (at international and national level)	

Week 10	School age and Adolescents	
Week 10	Adult women and men	
Week 11	Epidemiology in Community Health Care	
Week 11	Immunization	
Week 12	Communicable Disease Control	
Week 12	Environmental health and safety	
Weeks 13, 14	different topics -students presentations	

Mapping of Course Outcomes to Program Student Outcomes	Course Outcome Weight (Out of 100%)	Assessment method
Integrate principles of public health science at local, national, and global levels [1MW- 1]	15%	
Introduce environmental intrapersonal, interpersonal, and extra-personal stressors impounding on client and family systems in the community. [1MW- 3, 1MW- 4]	15%	
Plan comprehensive midwifery care that reflects human caring for women, neonates and their family through multidisciplinary collaborations [1MW- 3, 1MW- 5]	10%	
Demonstrates leadership as a collaborative member of the interdisciplinary healthcare team at different community settings. [1MW- 5]	10%	
To Analyze appropriate ethical principles used in community health practice. [1MW- 4]	10%	
Utilize critical thinking, problem solving, and decision-making skills in planning and providing care to patients at different community health settings and at individual, family, population and aggregate level. [1MW- 2, 1MW- 3]	10%	
Use the "community as client" approach to apply concepts of disease Prevention and health promotion in providing care to the target population [1MW- 1]	10%	
Integrate evidence-based practice skills for working with vulnerable or at risk individuals, families and populations in a community setting including: group work, networking, the home visit, assessment in the home, case management, screening, referral and promoting continuity of care. [1MW- 2, 1MW- 6]	10%	
Identify the impact of culture, diversity and difference on the midwife-client relationship, and approaches to ensuring cultural safety. [1MW- 4]	10%	

Relationship to Program Student Outcomes (Out of 100%)					
MW- 1	MW- 2	MW- 3	MW- 4	MW- 5	MW- 6
25	10	17.50	27.50	15	5

Evaluation	
Assessment Tool	Weight
First exam	20%
Second exam	20%
presentation	10%
Final exam	50%

Policy	
course policy	<p>Additional Notes</p> <p>Exams All exams are closed book and notes. The final exam is comprehensive (covers all the material). Incomplete exams need approval from the University Health Center and should be submitted within the specified period.</p> <p>Cheating Prohibited; and in case of cheating the student will be subject to JUST regulations (could be accessed through this link http://www.just.edu.jo/aboutjust/RegulationsTemp/40%20%D9%86%D8%B8%D8%A7%D9%85%20%D8%AA%D8%A3%D8%AF%D9%8A%D8%A8%20%D8%A7%D9%84%D8%B7)</p> <p>Attendance The instructor will keep track of attendance according to JUST regulations. In case of exceeding the permitted percentage of absenteeism (20%), the student will be dismissed from the course.</p> <p>Participation The instructor will serve as a facilitator of learning in the classroom and through posting various learning activities on E-Learning. This approach is expected to facilitate success and course objectives. In the classroom, the instructor will implement different methods to encourage in-class participation.</p> <p>Withdraw Should any student decide to withdraw from the class, s/he should refer to the university calendar for due date regarding the last date to withdraw. Be advised that dropping this course results in automatic withdrawal from the clinical course (Nur466).</p>
