VM711 Practical Training 1

Second Semester 2023-2024

**Course Catalog**

2 Credit Hours. This course includes general aspects of laboratory and practical work in different animals subjects including molecular. The student will be exposed to several instructor research and diagnostic works.

**Teaching Method:** On Campus

**Instructor**

Name	<b>Dr. Rami Mukbel</b>
Office Location	G1L2
Office Hours	Sun : 10:00 - 11:00 Mon : 12:00 - 14:00 Tue : 11:00 - 13:00 Wed : 12:00 - 13:00
Email	rmmukbel@just.edu.jo

**Instructor**

Name	<b>Dr. Mousa Daradka</b>
Office Location	G1 L2
Office Hours	
Email	daradka@just.edu.jo

**Class Schedule & Room**

Section 1:

Lecture Time: Mon, Tue : 08:30 - 11:30

Room: المركز الصحي البيطري

Section 2:

Lecture Time: Mon, Wed : 08:30 - 11:30

Room: LAB

Tentative List of Topics Covered		
Weeks	Topic	References
Weeks 1, 2, 3, 4	Veterinary Parasitology	
Weeks 5, 6, 7, 8	Veterinary Virology	
Weeks 9, 10, 11, 12	Veterinary Bacteriology	
Weeks 13, 14, 15, 16	Veterinary Anatomy	

Mapping of Course Outcomes to Program Outcomes	Course Outcome Weight (Out of 100%)	Assessment method
K1. State definitions and vocabulary used in parasitology. K2. List classification of parasitic helminthes of domesticated and game animals. K3. Identify the morphology of parasitic helminthes at different stages of life cycle and describe geographical distribution and life cycles of parasitic helminthes. K4. Define pathogenesis and signs of helminthes infections and describe the diagnosis and control of parasitic helminthes.	100%	Mid evaluation, Final evaluation

Relationship to Program Student Outcomes (Out of 100%)
