---

## EDUCATION

---

August 2013 Ph.D.	Texas A&M University, College Station, Tx., USA Aerospace Engineering ( <b>4.0/4.0</b> )
August 2009 MSc.	University of Dayton, Dayton, Oh., USA Aerospace Engineering ( <b>4.0/4.0</b> )
February 2003 B.Sc.	Jordan University of Science and Technology, Jordan Mechanical Engineering ( <b>honored 84.9%</b> )

---

## TEACHING POSITIONS

---

Fall 2024 – present Jordan University of Science and Technology	Associate Professor Nanotechnology institute
Fall 2021 – present San Diego State University	Associate Professor Aerospace Engineering Director of <a href="#">SPACE lab</a> Advisor of <a href="#">the Rocket club</a>
Spring 2018 – Spring 2021 San Diego State University	Assistant Professor Aerospace Engineering
Fall 2013 – Fall 2017 Khalifa University	Assistant Professor Aerospace Engineering
Spring 2018 – Fall 2018 Khalifa University	Adjunct Assistant Professor Aerospace Engineering
Spring 2014 – Present Texas A&M University	Adjunct Assistant Professor Aerospace Engineering

---

## PROFESSIONAL GROWTH

---

### Books

1. Bani Younes A., Flowfield Surrounding Small Photodriven Flapping Wings, VDM Verlag, Feb. 2010. ISBN-13: 9783639234640
2. Mortari D. and Bani Younes A., Stars Navigation, (*in preparation*).
3. Junkins J., Bani Younes A., and Bai X. Orthogonal Polynomials, Approximation Methods, and Solving the Differential Equations of Nonlinear Dynamical Systems, (*in preparation*).

### Refereed Journal Articles

1. [Under Review] Good J., and Bani Younes A., "Modeling Uncertainty in Perturbed Orbits with High-Order Transition Tensors," *applied sciences*, applsci-3292369, 2025.
2. [Under Review] Stanfield K., Bani Younes A., and Hayajneh M., "Generalized Q-Method Relative Pose Estimation for UAVs with Onboard Sensor Measurements," *Sensors*-3461719, 2025.
3. [Under Review] Khasawneh Q., Hatamleh K., Bani Younes A., and Abu Raidah S. , "Dual-Arm Manipulation During Walking of a Two-Legged Humanoid Robot, Dynamic Stability Control and Analysis," *Applied Sciences*, 2024.
4. [Under Review] Atallah, A., Bani Younes, A., & Rosengren, A., "Accuracy of Chebyshev-Picard Methods in Orbit Propagation," *Journal of Guidance, Control, and Dynamics (AIAA)*, 2024.
5. [Under Review] Atallah, A., & Bani Younes, A., "On the Stability and Accuracy of Clenshaw-Curtis Collocation," *Numerical Methods for Partial Differential Equations*, 2024.

### Invited Talks

1. AI Tools in Research," Nanotechnology institute, Jordan University of Science and Technology, 2025.
2. "AI Ethics in Research," College of Pharmacy, Jordan University of Science and Technology, 2024.
3. "Data-driven Innovation: Crafting Ideas From Concept to Universe," Innovation Center of Excellence, Jordan University of Science and Technology, Jordan, October 27<sup>th</sup> 2024.
4. "Computational Methods and Ground-Based Experiments for Space Operations," University of Cincinnati, Cincinnati, Ohio, USA, February 11th, 2022.
5. "Computational Methods and Ground-Based Experiments for Space Operations," University of California San Diego, San Diego, California, USA, April 19th, 2019.
6. "Ground-Based Experiments for Space Operations," University of Nevada Las Vegas, Las Vegas, Nevada, USA, February 28th, 2019.
7. "High Performance Computational Differentiation Algorithms for Generalized Optimization Applications," Computational Science Research Center (CSRC), San Diego, California, March 2<sup>nd</sup>, 2018.
8. "Computational Methods and Ground-Based Experiments for Space Operations," German--Jordanian University (GJU), Amman, Jordan, August 13th, 2017.
9. "Unmanned Aerial System for Low Atmosphere Planetary Exploration," Mohammed Bin Rashid Space Centre, Dubai, UAE, March 21st, 2017.
10. "Modelling, Estimation & Control of Dynamics Systems," Tawazen Dynamics, Abu Dhabi, UAE, March 16th, 2017.
11. "Computational Methods and Ground-Based Experiments for Space Operations," San Diego State University, San Diego, California, USA, February 6th, 2017.
12. "Computational Methods and Ground-Based Experiments for Space Operations," Auburn University, Auburn, Alabama, USA, February 10th, 2017.
13. "Risk-Reduction & Ground-Based Experimentations for Spacecraft Emulation," Global Space Congress, Abu Dhabi, UAE, January 31st, 2017.
14. "Robotics-Based Experimentation to Demonstrate and Emulate Spacecraft Maneuvers," 2nd Joint UAE Symposium on Social Robotics, Abu Dhabi, UAE, November 23rd, 2016.
15. "Risk Reduction Ground-Based Experiments for Space Operations," American University of Sharjah, Sharjah, UAE, November 17th, 2016.
16. "Risk Reduction Ground-Based Technology to Emulate Exploring Missions," 4th Arab-American Frontiers of Science, Engineering, and Medicine symposium, Abu Dhabi, UAE, November 7th, 2016.
17. "Risk Reduction Ground-Based Experiments for Space Operations," University of Sharjah, Sharjah, UAE, October 30th, 2016.

## Conference Articles

1. Atallah A., Bani Younes A., and Rosengren A., "Inverse-Optimal, Continuous-Thrust Orbit Transfers," 2024 AIAA SciTech Forum, AIAA 2024-1588, Orlando, FL, January 2024.
2. Nagabhushana S., Bitmead R., and Bani Younes A., "Hybrid Feedback Control Strategies for Aerocapture," 33rd AAS/AIAA Space Flight Mechanics Meeting, Austin, Texas.
3. Good J. and Bani Younes A., "Uncertainty Propagation of Perturbed Orbits Using High Order State Transition Tensors and Chebyshev Picard Method," 33rd AAS/AIAA Space Flight Mechanics Meeting, Austin, Tx, January 2023.
4. Jaradat H. and Bani Younes A., "Parallel Extended Kalman Filter Framework for Efficient Spacecraft Navigation using Chebyshev Picard Method," 33rd AAS/AIAA Space Flight Mechanics Meeting, Austin, Tx, January 2023.
5. Frank J. and Bani Younes A., "Autonomous and Resilient Orbit Estimation Technique Using Lunar Reflectors," 33rd AAS/AIAA Space Flight Mechanics Meeting, Austin, Tx, January 2023.
6. Atallah A. and Bani Younes A., "Inverse-Optimal, Continuous-Thrust Orbit Transfers," 33rd AAS/AIAA Space Flight Mechanics Meeting, Austin, Tx, January 2023.
7. Nagabhushana S., Bitmead R. and Bani Younes A., "Control strategy for Aerocapture using concepts of Model Predictive Control," 33rd AAS/AIAA Space Flight Mechanics Meeting, Austin, Tx, January 2023.
8. Walton C., Liu X., Bani Younes A., and Ridgeway T., "The History of SDSU Rocket Project," 2022 AIAA SciTech Forum, San Diego, Ca, January 2022.

### **Book Reviews**

1. "Elements of Space Launch-Vehicle Design," Springer, 2019.

### **Scholarly Awards**

1. John V. Breakwell award (co-authored with my JDP student), Spring 2019.
2. Chief Expert Certificate for Drone: Build and Fly, WorldSkills Competition, Spring 2017.
3. Khalifa University Employee Award for Outstanding Service, Fall 2016.
4. Chief Expert Certificate for Drone: Build and Fly, EmiratesSkills National Competition, Spring 2015.
5. Recognition Certificate for representing KU in EmiratesSkills National Competition, Spring 2015.
6. John V. Breakwell award (co-authored with my co-advisee PhD student @TAMU), Spring 2015.
7. Recognition Certificate for best advising Matlab Club, Khalifa University, Spring 2014.
8. Best Paper Award, 37th AAS GNC conference, Spring 2014.
9. SIAM Travel Award, Automatic Differentiation AD2012, Summer 2012.
10. Best Paper Award, ICSDEC 2012, Spring 2012.
11. Graduate Teaching Academy (GTA) Travel Award, Texas A&M University, Spring 2012.
12. Graduate Teaching Academy (GTA) Senior Fellowship, Texas A&M University, Spring 2012.
13. Graduate Teaching Academy (GTA) Fellowship, Texas A&M University, Spring 2011.

### **Funded Research Grants**

1. \$49,000 – Idaho National Lab, PI, 01/15/2023 – 05/30/2023.
2. \$25,575 – AFWERX, PI, 02/15/2021 – 12/30/2021.
3. \$100,000 – Space Micro Inc, PI, 02/15/2021 – 12/30/2021.
4. \$10,884 – Khalifa University Competitive Internal Research Award (CIRA), PI, 01/01/2019 – 06/30/2021.
5. \$22,000 – NASA JPL R&TD Innovative Spontaneous Concept Proposal, PI, 06/03/2019 – 09/15/2019.
6. \$1,000 – John V. Breakwell award, PI, 01/01/2019 – 02/01/2019
7. \$65,000 – Texas A&M Engineering Experiment Station (TEES), PI, 07/01/2018 – 09/30/2019.
8. \$110,000 – Abu Dhabi Award for Research Excellence (AARE), Co-PI, 01/01/2016 – 12/31/2017.
9. \$55,000 – Khalifa University Internal Research Fund Program (KURF I), PI, 01/01/2016 – 12/31/2017.

### **Grants Submitted**

1. \$66,000 – (Novum Nano): Shielding of Electronic Circuits from Space Radiation via Additive Manufacturing, PI, 06/27/2022 – 03/31/2023.
2. \$300,517 – (AFSOL): Higher-Order Methods for Space Domain Awareness in the XGEO Regime , Co-PI, 10/01/2022 – 03/31/2026.
3. \$50,000 – Department of The Air Force (AF), Co-PI, 10/01/2021 – 03/31/2022.
4. \$264,501 – Center for Resilient Autonomous Future Transportation (CRAFT), Co-PI, 01/01/2021 – 12/31/2022.
5. \$49,790 – US Department of Defense, PI, 06/01/2020 – 12/31/2020.
6. \$14,000 – Abu Dhabi Award for Research Excellence (AARE), PI, 01/01/2020 – 12/31/2022.

7. \$68,027 – Khalifa University has awarded a Competitive Internal Research Award (CIRA), PI, 07/01/2020 – 06/30/2023.
8. \$1,496,000 - Federal Emergency Management Administration, PI, 07/08/2019 – 06/08/2022.
9. \$22,000 – NASA JPL R&TD Innovative Spontaneous Concept Proposal, PI, 07/08/2019 – 09/30/2019.
10. \$61,999 – NASA JPL STTR with Space Micro, PI, 08/01/2019 – 05/01/2020.

### Participation in Professional Associations

1. American Astronautical Society (AAS)
2. American Institute of Aeronautics and Astronautics (AIAA)
3. American Society of Mechanical Engineers (ASME)
4. Association of Former students at Texas A&M University

---

### TEACHING EFFECTIVENESS

---

Teaching @ San Diego State University (average overall student evaluation: 4.3/5.0)

Fall 21, 22,23	AE331 Feedback Flight Control Systems, San Diego State University
Spring 24	AE676 Advanced Astrodynamics, San Diego State University
Spring, Summer 24	AE220 Engineering Dynamics, San Diego State University
Spring 21, 22, 23	AE596 Advanced Astrodynamics, San Diego State University
Fall 20,23	AE600 Optimal Estimation of Dynamic Systems, San Diego State University
Spring 19	AE798 Special Topics, San Diego State University.
Fall 18, 19, 20,21, 22	AE460A Spacecraft Design, San Diego State University.
Spring 19, 20,21, 22	AE460B Spacecraft Design, San Diego State University.
Spring 19, 22	AE499 Special Topics, San Diego State University.
Spring 18, 20	AE 520 Spacecraft Attitude Dynamics and Control, San Diego State University.
Spring 18	AE798 Special Topics, San Diego State University.

Teaching @ Khalifa University (average overall student evaluation: 4.4/5.0)

Fall 16, 17, Spring 17	AERO 350 System Dynamics and Control, Khalifa University.
Fall 15	AERO/MECH/ROBO 704 Estimation of Dynamic Systems, Khalifa University
Spring 17	MECH 603 Advanced Dynamics
Fall 15	AERO/MECH 694 Applications of Stochastics Theories in Dynamic Systems, Khalifa University.
Fall 13, 14, 16, 17	AERO 465 Space Dynamics and Control, Khalifa University.
Spring 14, 15, 16	AERO 465 Space Dynamics and Control, Khalifa University.
Spring 14	AERO/ME 351 Feedback Control Engineering Dynamics, Khalifa University
Fall 14, Summer 15	AERO/ME/CIVE 201 Engineering Dynamics, Khalifa University.
All semesters	Senior Design Project, Khalifa University.

Teaching @ Texas A&M University

Fall 12	Special Topics Lecturer, AERO 626 Estimation of Dynamic Systems, Texas A&M University
Fall 11, Spring 12	Graduate Teaching Senior Fellow (group leader), Texas A&M University.

Teaching @ University of Dayton

Spring 08, Summer 08	Teaching Assistant, MEE 439 Dynamics and Control, Universality of Dayton.
----------------------	---

Teaching @ In Jordan

2005-2007	Lead instructor, Training Center, Jordan Airmotive Limited Company.
-----------	---

Advisees @ San Diego State University

Fall 18 – Present	Shruthi Nagabhushana, JDP, Modelling of Irregular Dynamics Applied to Machine Learning
Fall 20 – Present	Shaan Heugly, M.S. student, Efficient and Optimal Techniques for Deep Space Orbital Transfer
Fall 20 – Present	Anjali Kurmoli, M.S. student, Object Avoidance Solutions based on Deep Learning Feature Detection Methods
Fall 23 – Present	Edward Kim, M.S. student, Cislunar Navigation Accuracy Using Optical Observations of Natural and Artificial Targets

Fall 23 – Present	Jason Ruiz, M.S. student, Satellite Attitude Testbed
Fall 23 – Present	Jeremy Miller, M.S. student, Optimizing Drone Navigation through Q-Learning-Based Potential-Force Algorithm
Fall 20 – Summer 24	Jennifer Good, M.S. student, Uncertainty Propagation of Perturbed Orbits Using High-Order State Transition Tensors and Chebyshev-Picard Method
Fall 18 – Spring 24	Ahmed Atallah, JDP, Applications of Orthogonal-Polynomial Approximations and Inverse-Optimal Control in Astrodynamics
Fall 22 – Spring 24	Kyl Stanfield, M.S. student, Advanced Pose Developments for Aerospace Applications in Estimation, Modeling, and Control
Fall 22 – Fall 23	Jared Frank, M.S. student, Autonomous and Resilient Orbit Estimation Technique Using Lunar Reflectors
Fall 19 – Spring 22	Adrian Juarez, M.S. student, MCPI-based Model Predictive Control: Applied to Astrodynamics
Fall 19 – Fall 23	Michael Stromecki, M.S. student, Satellite Attitude Platform
Fall 19 – Fall 22	Giaky Nguyen, M.S. student, Lunar finite element gravity model
Fall 19 – Spring 21	Edward Smythe, M.S. student, LSTM Satellite Predictions and Visualization Earth Orbits
Spring 18 – Fall 19	Jorge Bañuelos, M.S. student, Position and Attitude Determination Using Deep Learning Object Detection Algorithms for Autonomous Aerial Refueling
Fall 18 – Spring 20	Arnold Cruz, M.S. student, Constrained Attitude Control
Fall 18 – Spring 20	Cameron Bailey, undergraduate student, Satellite Attitude Simulator, US DOD UAS project
Fall 20 – Spring 20	Zachariah Fischer, undergraduate student, US DOD UAS project
Fall 20 – Spring 20	Kyle Netter, undergraduate student, US DOD UAS project
Fall 20 – Fall 20	April Thongrivong, undergraduate student, ANSWER, US DOD UAS project
Fall 20 – Spring 20	Brooke Tyler, undergraduate student, ANSWER, US DOD UAS project
Fall 18 – Fall 20	Cade Wilton, undergraduate student, Satellite Attitude Simulator
Spring 18 – Spring 20	John Andrew, undergraduate student, Satellite Attitude Simulator, US DOD UAS project
Fall 19 – Spring 20	John Wiggins, undergraduate student, swarm robots, US DOD UAS project
Fall 19 – Spring 20	Christopher Johnson, undergraduate student, swarm robots
Fall 19 – Fall 20	Sanam Nagvekar, undergraduate student, swarm robots
<u>Advisees @ Khalifa University</u>	
Fall 14 – Spring 18	Mohammad Alhulayil, PhD, High Orders Computational Techniques Applied to Space Dynamics
Fall 14 – Fall 15	Adnan Saeed, M.S. student, Modeling and Control of Miniature Hybrid UAVs
Fall 14 – Spring 17	Fatima Alkhoori, M.S. student, Fault Tolerance Control for Quad-Rotor UAVs.
<u>Advisees @ Texas A&amp;M University</u>	
Fall 12 – Fall 2016	Robyn Woollands, PhD (Thesis committee), Regularization and Computational Methods for Precise Solution of Perturbed Orbit Transfer Problems
Fall 13 – Fall 2016	Julie Read, PhD (Co-Advisor), Modified Chebyshev Picard Iteration: Integration of Perturbed Motion Using Modified Equinoctial Elements
<u>Advisees @ Jordan University of Science and Technology</u>	
Fall 23 – present	Hasan Alasad, M.S. student (Co-Advisor), Online Deep Reinforcement Learning-based Technique for Autonomous Path Planning
Fall 19 – Spring 21	Ahmad Fares, M.S. student (Co-Advisor), Online Deep Reinforcement Learning-based Technique for The Control Of Active Suspension System
Fall 16 – Summer 19	Aya Khamis, M.S. student (Co-Advisor), Cooperative aerial-ground robotic team controlled by an Intelligent Control Algorithm
Fall 16 – Fall 20	Mohammed Dalalah, M.S. student (Co-Advisor), Studying the Aerodynamics Effect of the Induced Holes in the X8-Skywalker Drone Wings
Spring 12	Graduate Teaching Academy (GTA) Travel Award, Texas A&M University

Spring 12	Graduate Teaching Academy (GTA) Senior Fellowship, Texas A&M University
Spring 11	Graduate Teaching Academy (GTA) Fellowship, Texas A&M University
March 30-April 1, 2012	15th Annual Wakonse South Conference on College Teaching, , at Canyon of the Eagles Lodge & Nature Park, in Burnet, Texas.
Spring 18	Curriculum Development: supporting department leadership by developing the space-related programs as well as independent PhD program in space @ SDSU
Spring 17	Curriculum Development: Satellite Design track (graduate) @ Khalifa University
Spring 16	Curriculum Development: UAV minors (undergraduate) @ Khalifa University
Fall 14	Curriculum Development: Astronautics track (undergraduate) @ Khalifa University

---

## SERVICE

---

### Service for the Department

1. Curriculum Committee (@SDSU) 3 year (current)
2. Promotion Committee (@SDSU) 2 year (current)
3. Faculty Search Committee (@SDSU) 3 year
4. Advisor of the Rocket club (@SDSU) 5 years (current)
5. Advisor of the Icarus team club (@SDSU) 5 years (current)
6. Advisor of several projects presented in Engineering design days.
7. Developing and directing Spacecraft Platform for Astronautics and Celestial Emulation (SPACE) laboratory, which is a six degree of freedom facility. SPACE supports comprehensive studies and hardware experiments for sensing, guidance, dynamics and control of space operations in an operationally relevant environment. The lab conducts research in robotic sensing and control, with an aim to enhance the fields of proximity operations, human-robot interaction, stereo vision, swarm robotics, and autonomous aerial vehicles.
8. Developed four new courses:
  - AE596 Fundamental Astrodynamics
  - AE460 spacecraft design.
  - AE600 optimal estimation for dynamic systems
  - AE 331 Feedback Flight Control Systems which will be added to the current aerospace curriculum
  - AE 676 Advanced Astrodynamics
9. Assisting the department for recruiting graduate students
10. Assisting the department for recruiting faculty
11. Serving in MS thesis committees
12. Assisting the department in developing an independent Ph.D. program in space.
13. Inviting and hosting guest speakers, e.g. Dr. Robyn Woollands (JPLGNC engineer) another key technical people from industry who join lectures and PDR in AE460.
14. Assisting our graduate in getting jobs and interns at local key companies (JPL, General Atomics,...).

### Service for the College

1. *Associate Dean of Engr. For Graduate Studies and research* Search Committee (@SDSU) 1 year
2. Constitution and Bylaws Committee
3. Representing the university at NASA JPL HBCU/MI Outreach Initiative on August 1-2, 2018.
4. Presenting my research profile at the college advisory board meeting in April 2018.
5. Serving in MS thesis committees.
6. Advisor of several projects presented in Engineering design days and student research symposium (Spring 2019).

### Service for the University

1. SDSU Senator
2. Student Learning Outcomes and Program Assessment Committee

3. Faculty member at SDSU Computational Science Research Center.
4. Faculty member at SDSU Big Data Analytics program.
5. Participating in SDSU Language Acquisition Resource Center

### Service for the Profession

1. Reviewer in several refereed journals and conference proceedings. 7 years
2. Sessions chair in multiple AIAA/AAS conferences 7 years
3. Subject Matter Expert, Jordan CubeSat Program, Masar Initiative (JY-Sat). 3 years
4. Editorial Board Member, International Journal of Applied & Experimental Mathematics. 5 years
5. Editorial Board Member, International Journal of Mechanical Systems Engineering. 5 years
6. Jury member of DRONE X challenge
7. Collaborating with various research groups in the USA, UAE, and Jordan
8. Member AAS, AIAA, Association of Former students at Texas A&M University.

### Service for the Community

1. Delivering lectures about robotics in some middle and high school at San Diego Unified School District
2. Hosting people in the SPACE lab to train them (voluntary) about the space robotics and GNC problems.
3. Invited as a key-note speaker to join a panel discussion a San Diego Air & Space Museum celebrating the 50th anniversary of the Apollo 11 lunar landing, 2019.
4. Invited to give talks in local and international schools (during the past professional career).

### @ Khalifa University (receipt of faculty excellent award for outstanding service 2016)

Advisor, American Institute of Aeronautics and Astronautics (AIAA), Khalifa University Student chapter.

Advisor, MATLAB Club at Khalifa University.

Academic Council Executive Member at Khalifa University.

Academic Council Member at Khalifa University.

Member AAS, AIAA, Association of Former students at Texas A&M University.

Reviewer of several international research journals.

Organizer, CubeSat contest; EmiratesSkills, UAE.

Leading the efforts on the CubeSat program: UAE CubeSat contest, education CubeSat projects... etc.

Establishing a strong and active base of collaboration with UAE Space entities; like UAE Space Agency.

Representing the university in several off-campus (national and international) events and activities.

Organizing several educational competitions among the entire country.

Mentorship: SDPs students at Khalifa University.

- Design and Build 1U CubeSat, Boeing funded, 2016-2018.
- Design, Build and Testing of Attitude Test-bed Platform for Emulating CubeSat Missions, Boeing funded, 2015.
- Flight Simulator: Design and Build, KU funded, 2015.
- PV-powered Cooling System for Parked Cars, KU funded, 2015.
- Design and Fabrication of 3D Printer Test Bed, KU funded, 2015.
- Two Axes Stabilized Parallel Platform, KU funded, 2014.
- Investigating the Flight Manner on the Power Consumption of Quadrotors, Boeing funded, 2014.
- Grasshopper Robot, KU funded, 2014.
- Automatic Window Cleaning System, KU funded, 2014.
