

FIDAA ALMOMANI

PROFESSOR OF THERAPEUTIC SCIENCES

PROFILE

As a proud mother of seven and a Professor of therapeutic sciences and occupational therapy, my services at Jordan University of Science and Technology are centered on educating undergraduate student through the semester coursework and activities, and helping local community awareness and wellness drives. My research has brought me in contact with many influencers in the local community that help improve the wellbeing of many children and families from all walks of life. My recent research work is concerned with the role of social media and the use of smart mobile devices in children dietary, cognitive, and behavioral habits. I continue to seek topical research challenges and opportunities while engaging my students to increase their sense of relevance and responsibility to the community.
