- Professional Introduction & Biography

I am an experienced Clinical Pharmacist and Lecturer at the Department of Clinical Pharmacy, Faculty of Pharmacy, Jordan University of Science and Technology (JUST). With over a decade of academic and research experience, I specialize in clinical pharmacy education and pharmaceutical research. Over the years, I have taught and supervised a wide range of courses that bridge theory with clinical practice across diverse pharmacy courses. My research interests lie at the intersection of clinical pharmacy, pharmacotherapy, nutritional pharmacology and pharmaceutical sciences, with contributions spanning patient care, drug utilization, and pharmaceutical product development. I have published in international peer-reviewed journals. My collaborations extend across multidisciplinary research in food science and clinical pharmacy, reflecting a commitment to bridging pharmacy practice with global health challenges. My future goals will focus on integrating research, clinical practice, and teaching to improve patient care and contribute meaningfully to both local and global healthcare challenges.
