

## Suhaila A. Al-Sheboul, Ph.D

Associate Professor of  
Molecular Microbiology  
and Immunology

### Office Address and Contact Info.

Jordan University of Science and Technology (JUST)  
Faculty of Applied Medical Sciences  
Department of Medical Laboratory Sciences  
E-mail Address: [sashboul@just.edu.jo](mailto:sashboul@just.edu.jo)  
Office Phone: +962-2-7201000 ex.23770  
P.O Box: 3030. Irbid 22110, Jordan

### Skills

#### Laboratory

- **Molecular Genetics:**  
DNA: Genomic and Plasmid DNA extraction; Restriction digestion and mapping and Plasmid transfection; Southern Blot; PCR (Conventional and real time PCR); Probe preparation and primer designing; Expression cloning; Gel electrophoresis

# Curriculum Vitae

## Profile

As a professor at Jordan University of Science and Technology (JUST) with very long teaching and research experience in Jordan and worldwide, I have learned how to be a successful professor and how to graduate successful, resilient individuals. As a teacher, I constantly motivate my students to pursue knowledge and education. Given that I was the first Fulbright Scholar from JUST. My graduate students receive ongoing encouragement from me to engage in genuine research, problem-solving, and appreciation of the sciences without feeling under pressure. My voluntary work in 2015 resulted in "The American Medical Technologists (AMT) certification" for the Faculty of Applied Medical Sciences /Department of Medical Laboratory Sciences at JUST. This certification will assist in establishing our graduates' equivalency with US graduates. Meanwhile, my research at JUST focuses on the subject of AMR (antimicrobial resistance). Additionally, I'm interested in evaluating and finding new testing methodologies across all aspects of diagnostic and medical microbiology. In 2018, I was selected by the American Society of Microbiology (ASM) to serve as the organization's first Senior Ambassador for Jordan. Through which, I was able to perform a great deal of scientific activities that helped students to understand more about the significance of the field of microbiology. My interviews with Jordanian and foreign TV and radio stations and my published articles during the "Corona pandemic" benefitted a lot of people worldwide thanks to my expertise and my considerable education in microbiology, immunology, and clinical laboratory sciences. I consider myself to be a lady who is incredibly motivated and passionate about scientific public engagement.

## Education

- **Doctor of Philosophy (Ph.D) in Biomedical Sciences**
- **Area of Specialization: Molecular Microbiology and Genetics**
- University of Wisconsin-Milwaukee / Medical College of Wisconsin, WI, USA.
- **Master of Science (M.Sc.) – Medical Laboratory Sciences/ Biomedical Sciences/ College of Health Sciences**
- University of Wisconsin-Milwaukee, WI, USA.
- **Bachelor of Science (B.Sc.) in Medical Laboratory Sciences**
- Yarmouk University, Faculty of Medicine - Irbid, Jordan.

## Memberships and Achievements

- American Society for Microbiology (ASM).
- The American Society for Clinical Laboratory Sciences (ASCLS)
- 2014-2015: Amman/Jordan: Fulbright Review board
- 2014-2015: Achievement of the AMT (American Medical Technology Association) recognition. The AMT recognition of the MLS program was accomplished through my efforts.
- Representative of the Department of Medical Laboratory Sciences at "The Faculty of Applied Medical Sciences council".

- (Agarose and polyacrylamide gel electrophoresis); DNA sequencing. RNA: Isolation; Northern Blot; Slot Blot.
  - Biochemistry:** Protein extraction, purification, SDS-PAGE (1-D and 2-D), Western Blot; Protein quantitation. Spectrometry: Spectrophotometric enzyme assays; familiar with Mass Spectrometry; Chromatography: ion-exchange, HPLC, affinity chromatography.
  - Immunology:** Immunoprecipitation; ELISA; other immunological and radioisotopic techniques; Immunohistochemistry; Immunoprecipitation; Immunofluorescence
  - Tissue Culture:** Primary cell harvests: Mouse spleen; Natural killer cells; Fibroblast Cell culture; Transfection of Tissue culture cells; Cytotoxicity assays- e.g.Chromium <sup>51</sup> release assay; tissue culture.
  - Microbiology:** Conventional and Molecular tools in microbial diagnosis
  - Other special laboratory skills:** In Parasitology; Hematology; Pathology; Immunology; and Clinical Biochemistry;
  - Representative of the Faculty of Applied Medical Sciences at JUST
  - Member, Graduate Studies Committee.
  - Member in the Scientific Research Committee in the department and in the Faculty.
  - Member, Library Committee
  - A member in the community services program committee
  - A member in the syllabus committee
  - Organizer of Department's journal club committee
  - Department's mini proposals and research grants evaluation committee
  - Department representative at the faculty council
  - Member in department committee to accredit and review the academic standards at Aden University/ Yemen. March 2013- Feb 2014 Aden University/Jordan University of Science and Technology.

## Awards and Honors

  - First "Senior" Ambassador for The American Society of Microbiology in Jordan (ASM) (2018-Present)
  - Fulbright Scholarship Award (First Fulbright Student from Jordan University of Science and Technology) /USA
  - SAHP Student Research Award – In Clinical Lab Sciences at the University of Wisconsin-Milwaukee/USA
  - The University of Wisconsin-Milwaukee Chancellor's Award/USA
  - The American Society for Microbiology (ASM) Travel Award
  - Ruth Walker Travel Award, University of Wisconsin-Milwaukee, Biology Department.
