Biography:

Dr. Shadi Hamouri is a Professor of Thoracic Surgery at the Faculty of Medicine/ Jordan University of Science and Technology (FMJUST). Currently, he has been working as Vice President for Health Sciences Faculties Affairs at Al-Balqa Applied University (BAU)/Jordan since September 2024, alongside his role as a Dean of the Faculty of Medicine at (BAU) (Secondment) since September 2022. He also serves as a Senior Consultant of Thoracic Surgery at King Abdullah University Hospital and Al-Salt Governmental New Hospital. His journey began with an MBBS degree from FMJUST in 1998, followed by general surgery training at FMJUST and the American University of Beirut (AUB)/Lebanon. He then embarked on a unique path, pursuing General Thoracic Surgery Training at the University of Göttingen Teaching Hospital/ "East Bremen Hospital" and the University of Duisburg-Essen Teaching Hospital/ "Protestant Hospital in Herne," Germany.

Dr. Hamouri's clinical practice is a testament to his expertise and dedication. After completing his thoracic surgery training, he joined the Faculty of Medicine at JUST in 2009 and has been practicing in the Department of Surgery since then. His work extends beyond the university, as he has also served as a Part-time Assistant Professor at Hashemite University (2010-2017) and a Part-time Associate Professor at the University of Jordan (2018-2019). Dr. Hamouri has contributed to more than sixty publications in which he has primarily authored or has co-authorships in internationally prestigious journals and cardiothoracic surgery book chapters. He is an active member of many national, regional, and international boards of directors, advisory boards, groups, bodies, and societies. His clinical practice focuses on treating benign and malignant thoracic surgical disorders using minimally invasive surgical techniques, a testament to his innovative approach and dedication to patient care.

Dr. Hamouri's commitment to medical education is a testament to his passion and dedication. His career includes various academic and administrative university posts, such as the Faculty of Medicine Dean's Assistant (2014-2016), Chairman of the General Surgery Department (2016-2018), and Vice Dean for Clinical Affairs at the Faculty of Medicine (2018-2020), Vice Dean of the Faculty of Graduate Studies (2020-2022) at Jordan University of Science and Technology (JUST). His passion for medical education is evident in his work on undergraduate "MD degree curriculum" development and assessment using objective structured clinical examinations (OSCE) and competency-based assessment. He also brings his experience in quality assurance and accreditation of quality assurance agencies and medical schools to his current roles as an international assessor at the World Federation for Medical Education (WFME) and an external reviewer for the Commission for Academic Accreditation (CAA) in the United Arab Emirates and the National Center for Educational Quality Enhancement (NCEQE) in the Republic of Georgia.

Clinical Thoracic Surgery Experience:

I was privileged to have my General Thoracic Surgery Training at the University of Goettingen East Bremen Teaching Hospital "Klinikum Bremen-Ost" and the University of Duisburg-Essen Teaching Hospital. The latter is considered the **first center of excellence** for Thoracic Surgery in Germany, "**Thoraxzentrum Ruhrgebiet**," mentored by Prof. Erich Hecker. After completing thoracic surgery training, I joined the Faculty of Medicine at JUST in 2009, and since then, I have been practicing in the Department of Surgery and Urology. In 2022, I moved to Al-Balqa Applied University as a Dean of the Faculty of Medicine (Secondment). My practice focuses on adult as well as pediatric thoracic surgical conditions. It includes but is not limited to surgical treatment of thoracic malignancies, including esophageal malignancies, structural lung disorders, thoracic surgical infections, benign esophageal disorders, and surgical chest infections. Most of the procedures are performed using minimally invasive "Key-Hole Surgery" techniques.

Teaching Experience:

As soon as I joined the Faculty of Medicine, I participated in undergraduate and postgraduate teaching and training activities. I was honored to be the General Surgery Course coordinator for fourth-year medical students for one year and then for sixth-year students for six years. After that, I was assigned as a program director for the General Surgery Residency Training Program.

The **undergraduate teaching experience** includes:

1. Conducting lectures and moderating seminars
2. Supervising Morning Reports, Grand Rounds, Mortality and Morbidity meetings, Journal Clubs
3. Clinical bedside teaching
4. Small groups discussions in the outpatient clinics
5. Clinical teaching using simulation in the clinical simulation laboratory using high-fidelity simulators.
6. Organizing and arranging clinical exams for medical students in the periods mentioned above.
7. Organizing and coordinating all Objective Clinical Skills Examination O.S.C.E. during the periods mentioned earlier.
8. Online Distance Learning during the COVID-19 pandemic
9. Virtual Clinical Teaching during the COVID-19 pandemic
10. Organizing Distance Online Assessment and Examination for all clinical years in the academic year 2019/2020.
11. Course coordinator of the Medical Communications Skills (Med 301) in the academic year 2020/2021

The **postgraduate teaching experience** includes:

1. Conducting lectures and moderating seminars
2. Supervising Morning Reports, Grand Rounds, Mortality and Morbidity meetings, Journal Clubs
3. Clinical bedside teaching
4. Supervising research projects of the general surgery residents
5. Training and supervising the residents in the surgical operating room
6. Organizing and coordinating all Objective Clinical Skills Examination O.S.C.E. during 2012-2018.

My participation in the following academic workshops, conducted by the Academic Development and Quality Assurance Center of Jordan University of Science and Technology as well as the Quality Assurance Center at Al-Balqa Applied University, strengthened the above skills and experiences.

Academic Workshops:

1. Teaching and assessment of communication skills
2. Scientific analysis using "Statistical Package for Social Sciences SPSS"
3. Testing and Evaluation
4. Training on a human patient simulator
5. Introduction to Improve Quality of Education
6. MD Program Curriculum Mapping
7. Scientific analysis using "Statistical Package for Social Sciences SPSS"
